## Cost II 2024-25

Institution: Indiana University-East (151388)

User ID: 88G2401

### Overview

#### Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

#### Data Reporting Reminder:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

#### Changes in reporting:

The following changes were made for the 2024-25 collection:

- This is a new survey component that will open in the Fall to allow Cost of Attendance (COA) data to be updated on College Navigator. The component will reopen in the Winter to collect selected information on financial aid awards to calculate an institutional Average Net Price (ANP), at which time COA data elements can be updated or corrected.
- Added questions to determine and make publicly available the information on whether postsecondary institutions ask for other financial information not on the FAFSA form and whether they collect asset data even when students qualify for having their assets exempted from the federal need analysis as this information required by the FAFSA Simplification Act.

#### Resources:

Screen: Section 1 - Student Charges: Part B - Cost of attendance for full-time, first-time undergraduate students				
Screen Entry	This value is expected to be within 25% of the prior year amount. Please correct your data or explain. (Error #11109)	Explanation	Yes	
Reason	The books and supplies per credit hour amount increased to \$41.67/hour for 2024-25 from \$23/hour. The data source utilized for the data was changed to be reflective of the College Board trends in pricing.			
Screen Entry	This value is expected to be within 25% of the prior year amount. Please correct your data or explain. (Error #11109)	Explanation	Yes	
Reason	The Living with Parent transportation amount was streamlined to utilize the same methodology as students living off campus from the College Board, Low 9-month budget, resulting in an increase to \$77.07 / week. The Living with Parent personal amount was streamlined to utilize the same methodology as students living on or off campus, reflective of the College Board trends in pricing.			
Screen Entry	For students living Off-Campus (with family), any charges reported for food and housing are expected to be small, as it is assumed that students living at home with parents will be responsible for minimal food and housing costs. Please review your student financial aid budget(s), and if this amount is determined to be correct, please provide an explanation for the value reported. Otherwise, please revise your data. (Error #11564)	Explanation	Yes	
Reason	The Living with Parent housing amount increased due to the changes in the FAFSA from the EFC to the Student Aid Index (SAI) and the resulting increase to the income protection allowance. The budget amounts are based on the student aid index, income protection allowance for each additional household member and then a percentage is used for food, housing, and other family consumption.			
Screen: Section 1 - Student Charges: Part C - Tuition and Required Fees by Level (Undergraduate and Graduate [not including Doctor's-Professional practice])				
Screen Entry	This value is expected to be within 25% of the prior year amount. Please correct your data or explain. (Error #11109)	Explanation	Yes	
Reason	This year IPEDS is asking for the average tuition rate of part-time students, not just the per credit hour charge. Per IPEDS, NCES advised to us to multiply the "per credit hour" fee by the average part-time student course load at the institution to calculate the average tuition for "typical PT student" or the majority of PT students in this case.

Screen: Section 2 - Financial Aid Data: Part D - full-time, first-time degree/certificate-seeking undergraduate students Awarded Title IV Aid				
Screen Entry	The calculated average amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	

	This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.				
Reason	The number of students in this category is small and the relative mix of funding sources can vary from year to year. The average non-private gift aid for this income range increased from 2020-21 to 2021-22 due to an increase in the average institutional gift aid for this group, and this funding source represents a larger percentage of funding for this group in 2021-22. At the same time, State of Indiana average awards for this group declined, as did the number of recipients, as there were no 21st Century Scholars in 2021-22, although these are a minority of recipients in this group.				
Screen Entry	The total amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 1,007,237 and 1,678,727 based on the prior year value. Please correct your data or explain. (Error #7332)	Explanation	Yes		
Reason	These values are correct. The total amounts of federal, state, and institutional awards increased over the past year, as did the overall number of students receiving those awards.
