## Cost II 2024-25

Institution: Indiana University-South Bend (151342)

User ID: 88G2401

### Overview

#### Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

#### Data Reporting Reminder:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

#### Changes in reporting:

The following changes were made for the 2024-25 collection:

- This is a new survey component that will open in the Fall to allow Cost of Attendance (COA) data to be updated on College Navigator. The component will reopen in the Winter to collect selected information on financial aid awards to calculate an institutional Average Net Price (ANP), at which time COA data elements can be updated or corrected.
- Added questions to determine and make publicly available the information on whether postsecondary institutions ask for other financial information not on the FAFSA form and whether they collect asset data even when students qualify for having their assets exempted from the federal need analysis as this information required by the FAFSA Simplification Act.

#### Resources:

- To download the survey materials for this component: [Survey Materials](#)
- To access your prior year data submission for this component: [Reported Data](#)

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Screen Entry	This value is expected to be within 25% of the prior year amount. Please correct your data or explain. (Error #11109)	Explanation	Yes	
Reason	The books and supplies per credit hour amount increased to \$41.67/hour for 2024-25 from \$23/hour. The data source utilized for the data was changed to be reflective of the College Board trends in pricing.			
Screen Entry	This value is expected to be within 25% of the prior year amount. Please correct your data or explain. (Error #11109)	Explanation	Yes	
Reason	The Living with Parent transportation amount was streamlined to utilize the same methodology as students living off campus from the College Board, Low 9-month budget, resulting in an increase to \$77.07 / week. The Living with Parent personal amount was streamlined to utilize the same methodology as students living on or off campus, reflective of the College Board trends in pricing.			
Screen Entry	For students living Off-Campus (with family), any charges reported for food and housing are expected to be small, as it is assumed that students living at home with parents will be responsible for minimal food and housing costs. Please review your student financial aid budget(s), and if this amount is determined to be correct, please provide an explanation for the value reported. Otherwise, please revise your data. (Error #11564)	Explanation	Yes	
Reason	The Living with Parent housing amount increased due to the changes in the FAFSA from the EFC to the Student Aid Index (SAI) and the resulting increase to the income protection allowance. The budget amounts are based on the student aid index, income protection allowance for each additional household member and then a percentage is used for food, housing, and other family consumption.

Screen Entry	This value is expected to be within 25% of the prior year amount. Please correct your data or explain. (Error #11109)	Explanation	Yes	
Reason	This year IPEDS is asking for the average tuition rate of part-time students, not just the per credit hour charge. Per IPEDS, NCES advised to us to multiply the “per credit hour” fee by the average part-time student course load at the institution to calculate the average tuition for “typical PT student” or the majority of PT students in this case.

Screen: Section 2 - Financial Aid Data: Part C - full-time, first-time degree/certificate-seeking undergraduate students Awarded Grant & Scholarship Aid				
Screen Entry	The number entered is outside the expected range of between 98 and 182 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	The distinction between living with family and living off campus (not with family) is self-reported on the FAFSA. The difference in the percentage living with family may be attributed to individual student decisions and random variation.			

Screen: Section 2 - Financial Aid Data: Part D - full-time, first-time degree/certificate-seeking undergraduate students Awarded Title IV Aid				
Screen Entry	The total amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 2,765,945 and 4,609,907 based on the prior year value. Please correct your data or explain. (Error #7332)	Explanation	Yes	
Reason	The total amount increased for numerous reasons. The 2023-24 O'Bannon Grant schedule provided higher amounts. The Pell Payment Schedule amounts increased. State of Indiana 21st Century Scholarship Amounts increased due to increased tuition. Finally, the total number of recipients increased by 13.2%.			
Screen Entry	The number entered is outside the expected range of between 55 and 101 when compared with the prior year value. Please correct your data or explain. (Error #7169) <b>This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.</b>	Explanation	Yes	
Reason	The percent of students in the subcohort living on campus is still trending upwards towards pre-COVID rates. While the reported rate of students in this subcohort living on campus is 23%, in 2019-20 it was nearly 25%. The increase in students living on campus might also be attributed to the overall increase of the subcohort population from last year.			
Screen Entry	The number entered is outside the expected range of between 62 and 114 when compared with the prior year value. Please correct your data or explain. (Error #7169) <b>This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.</b>	Explanation	Yes	
Reason	The distinction between living with family and living off campus (not with family) is self-reported on the FAFSA. The difference in the percentage living with family may be attributed to individual student decisions and random variation. This increase in students living off-campus (not with family) also coincides with the overall rise in the subcohort population from the prior year.			
Screen Entry	The total amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 1,947,930 and 3,246,550 based on the prior year value. Please correct your data or explain. (Error #7332) <b>This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.</b>	Explanation	Yes	
Reason	The increase in the overall federal, state, and institutional grant or scholarship funding coincides with the increase in the part E-01 subcohort population from the prior year. The overall average amount of funds received by each student in the subcohort are very similar from 2022-23 to the year prior.			
Screen Entry	The total number of FTFT awarded Title IV Aid students who were awarded any Title IV aid across all income levels is outside the expected range of between 289 and 481 based on the prior year value. Please correct your data or explain. (Error #7333) <b>This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.</b>	Explanation	Yes	
Reason	The increase in the number of students in the part E-01 subcohort coincides with the overall annual increase in the less granular subcohort populations identified in parts A-05, A-06, A-07, and A-08.
