Reporting on US Military Veteran Students and Family

Overview

Since the summer of 2014, IU has used student groups in the Student Information System (SIS) to report on students who are veterans of the US military, as well as family members of veterans who are students. There are ten student group codes used for this reporting, and these are grouped into five categories to facilitate reporting. These student group codes are maintained by IU Student Records and the campus Military and Veteran Student Services offices.

The following list shows how student group codes in the SIS are used for US veteran student reporting. This list shows each student group and the categories (e.g. GI Bill, GI Veteran, etc.) that are associated with each student group.

University Institutional Research & Reporting

Note that these student group codes and categories exist for all veteran students and their family members who are students, regardless of whether they are receiving veteran education benefits from the US Department of Defense (e.g. GI Bill benefits).

The five categories above (e.g. GI Bill, GI Veteran, etc.) exist as Yes-No indicators on each student record in many tables in the IU Data Warehouse. Examples include Student Term, the UIRR Census Term Snapshot, the UIRR Student Degree Snapshot, and the UIRR Retention model. The next section below lists some of these tables and the column names for the categories.

Users may want to consult these UIRR Tableau dashboards to see headcounts of veteran students and veteran family members who are students:

- https://uirr.iu.edu/facts-figures/limited-use-reports/veterans/index.html (this report has restricted access)
- https://uirr.iu.edu/facts-figures/enrollment/index.html (attribute = Veteran)
    - This attribute shows the Student Group category of Veteran on page 1 above, and it is based on the column PRSN_VET_IND = Y as described in the next section below.
- https://uirr.iu.edu/facts-figures/outcomes/retention/index.html (attribute = Veteran)
- https://uirr.iu.edu/facts-figures/outcomes/degrees/bachelor-degree-recipient/index.html (attribute = Veteran)

Finally, UIRR also offers separate financial aid reports that indicate headcounts of students who received GI Bill education benefits and State of Indiana gift aid for veteran students and their families. Details about tables and column names are in the section below, and the following UIRR Tableau reports show dollars and recipient counts:

- https://uirr.iu.edu/facts-figures/financial-aid/recipient-counts-fa-amounts/fa-ug-gift-by-award-program/index.html (Select Award Programs = Federal Gift Aid Programs or State of IN Gift Aid Programs)
- https://uirr.iu.edu/facts-figures/financial-aid/recipient-counts-fa-amounts/fa-lookup-by-area-of-study/index.html (Select Award Categories = Federal Gift Aid Programs or State of IN Gift Aid Programs)

Also, federal veteran student financial aid is reported on the Integrated Postsecondary Education Data System (IPEDS) Student Financial Aid Survey: https://uirr.iu.edu/compliance/ipeds/index.html

Also, note that the Yellow Ribbon Match program provides Post 9-11 GI benefits to veteran students and their dependents, and each recipient has two awards: 1) a federally funded amount, and 2) an IU-funded Yellow Ribbon Match amount. Only the federally funded portion is reported as federal veteran benefits, and it is included in the Post-911 GI Bill Tuition Benefit categories above.

Finally, the State of Indiana-funded programs for veterans and children of veterans are described on this website: https://www.in.gov/che/state-financial-aid/state-financial-aid-by-program/ .
